Allegro Hydraulic Door Closer: Door Deductions

NV401 Allegro Hydraulic Surface Mounted Closer

Special note: The factory has changed the backset on these closers to align with the standard backset of Door Patch Fittings (65mm). In case they are mixed up in a delivery, please check before installation.
Old = 70mm from wall New = 65mm from wall

Note: Can be used in combination with standard door patch fittings for overpanels and sidelites, etc.
